

Game	Notes	Disadvantages	Resource	Approx price
Bookworm (word)	creativity with word seaching, no time limit, spelling and reading.	mouse/mouse keys activated only	www.bigfishgames.com	£12
Flip words (word)	As Bookworm with added bonus of a phrase to complete.	mouse/mouse keys activated only	www.bigfishgames.com	£12
Word Harmony (word)	Hand eye coordination. Manual dexterity, vocabulary, memory spelling, strategy and spatial awareness information processing relaxing music	mouse/mouse keys activated only	www.bigfishgames.com	£12
Super Text-Twist (word)	create as many words out of 6 or 7 letters. Can use keyboard. Spelling, information processing. Simple graphics most of it good for partially sighted	list of words already created small font.	www.bigfishgames.com	£12
Word Mojo Gold	Similar to scrabble but with added strategy needed. Bonus word to be created by letters which have been placed in certain squares; planning	more difficult than text twist or bookworm	www.bigfishgames.com	£12
Word Wizard Deluxe (word)	Like Text-Twist as the selection of letters remain the same throughout the game but with structure of scrabble.	small letters	www.bigfishgames.com	£12
Slotwords (word)	Excellent game which progresses from 3 to 7 letters. 10 different words for each number of letters.	noisy and has irritating features because it is set up as 'betting' game	www.bigfishgames.com	£12
Typer Shark (typing)	Good game for the fairly proficient typist Excellent typing tutor though good graphics showing fingering. Speed of tutoring ok.	Not for very slow typists. Better off doing some copy typing.	www.bigfishgames.com	£12
Magic Inlay (spatial awareness)	Filling predetermined shapes by tessellating smaller ones which are selected from a 'conveyor belt' Planning is required to ensure gaps aren't left unfilled. Use both buttons on the mouse. Ability to 'turn' shape around in your head to see if they'll fit. Levels increase in difficulty and options for 'no lose' level.	Can get stuck if planning wasn't good as the conveyor belt and the 'drop section' is slow. Best to strat again at this point.	www.bigfishgames.com	£12
Five Card Deluxe (planning)	Card game which deals out cards and user has to choose which 'hand' (out of four) to place them in. Aim is to create valid poker hands. As you progress specific hands are required.		www.bigfishgames.com	£12
Top Ten Solitaire (planning)	Selection of solitaire games.	Tutor has to learn them all!	www.bigfishgames.com	£12
Feeding Frenzy (mouse control and concentration)	Excellent game for new Members who say they've never used a computer before to assess their ability to use a mouse. No button clicking required to begin with just reaction to fish on screen. Good fun		www.bigfishgames.com	£12
5 Spots II (Concentration and hand-eye coordination)	Good for left side neglect or other peripheral vision problems to help member to look left.	Some images very difficult to spot difference.	www.bigfishgames.com	£12
Ten-Pin Bowling (hand-eye coordination)	good for practising click, hold and drag process.		www.bigfishgames.com	£12

Inspector Parker (Memory and information processing)	gradually increases in difficulty. Progress with elimination. Information processing	mouse/mouse keys activated only	www.bigfishgames.com	£12
Be Trapped (information processing)	similar to mine sweeper. As you move around tile-floored rooms the tiles reveal whether the adjacent tiles have contain 1,2,3 bombs according to their colour.	mouse/mouse keys activated only	www.bigfishgames.com	£12
Test and Improve Your Memory (various games which involve information processing and memory)	set of 12 games developed by www.happyneuron.com Find in PC World or computer related shops		www.happyneuron.com	£10
GCSE Letts CDs Maths English History	Good for testing knowledge of certain areas		Find in PC World or computer related shops	£10
Who Wants to be A Millionaire	as useful as other quizzes especially as it can be used with mouse or keyboard		Find in PC World or computer related shops	£10
Driving Test success practical and hazard perception CDs	Good for testing knowledge and reaction time.		Find in PC World or computer related shops	£10
Out and About 1 and 2 (Semerc)	Short exercises social issues and every day tasks.	Not broad enough	Granada Learning www.semenc.com	£45
Streetwise (Smart Moves)	Short exercises social issues and every day tasks.	Not broad enough	Learning and Teaching Scotland	£70
Bungalow Software	Huge range of <i>demo</i> exercises which can be downloaded for free (or bought on a CD for approx £10) Specific for literacy and maths skills for aphasic and dyslexic. Particularly useful are Sights and sounds and Words A 1. Freeform is a programme from which sheets can be printed for paper cognitive work. REACT is the British version of exercises available from <i>propeller</i>		www.bungalowsoftware.com www.Propeller.net/rehab	free demos but bought modules around £100
Memory Match				
Mystery Case Files: Huntsville	Read the clues on the right then search for items in 'cluttered room' lots of different 'rooms'	Time limited		£23
Funky Farm Thanksgiving Edition.	Multitask game. Practise organising your farm for good productivity and management of animals	Tutorial nice and slow but does progress to overload.		£13
www.bigfishgames.com	Huge range of games which can be downloaded to try for 1 hour or 3 'go's' and are generally approx £13.			
Other websites of interest				Free
www.braintrain.com	Captains Log is a comprehensive database of game-like software which logs the user's ability. You can get a £10 demo to try. This includes a smart drive programme which you can use a steering wheel with but the graphics are unrealistic. Other software is available for professional psychologists.			£5000 for just the captains log for 5 computers
www.greyolltwit.com	Interesting site with software suggestions.

www.accilifeskills.com	cognitive life skills			
www.audiblox2000.com	cognitive paperbased work <i>compublox</i> is a computer version containing 4 exercises			approx £20/module of work(CD?)
http://wsupress.wayne.edu	Wayne State University. Brubaker books for cognitive/literacy work paper based			£160 for all books
http://lifesciassoc.home.pipeline.com/cog/	COGREHAB is a very expensive rehabilitation programme but can be bought in modules of £30 approx but each module has only one function. A complete set of just the visual processing modules costs £300 approx. All modules are old in appearance (like old atari games) But each 'game' is good for measuring specific skills. Worth looking at for ideas		Main website also has exercises such as 'piaget' which is an information processing programme similar to the Mastermind board game.	
	Dorling and Kindersley produce good learning CDs but the useful ones are made for children. The Spelling made Easy CD is used by our Members and they are happy with the presentation because the teaching is good.
